MAYOR SUGGESTS PLAN AT MEETING LAST NIGHT.

COMPROMISE PROBABLE

Friday's Special Session Given Over to Delayed Business—Points of Contention Not Discussed.

Just before the adjournment of last night's special council meeting Mayor U. S. Wright told the board of aldermen that he was willing to make concessions in the matter of appointments that has caused so much trouble during the present administration, and that he hoped the board could agree with him in a satisfactory arrangement.

Mr. Wright said that from the attitude the board had taken at the last meeting he thought that it was firmly opposed to him in the matter of appointments, and that as long as the present conditions remain the effective work of the council would be blocked. He said that he had no ill feeling toward any member of the board and did not want to carry the troubles any further as a matter of personalities between himself and anybody. Therefore, for the best interests of the city he was willing to make concessions, and hoped the board would get together with him and in a friendly way effect a compromise.

Aldermen Indorse Mayor's Plan.

Every member of the board heartily indorse this plan. The president of the board will call an informal meeting some time next week, and the aldermen, with the mayor, will discuss the matter in a tentative way to be acted upon at the next meeting.

Nothing was said in the meeting, or by the mayor or any of the aldermen afterward, as to what the nature of the compromise might be.

Last night's meeting was taken up with unfinished business. Among the most important matters settled were some sidewalk questions. The city engineer was instructed to look up all old ordinances that were properly drawn that provided for the building of new sidewalks, and to re-notify the property owners that the walks must be put down. This will mean that about fifteen blocks of new sidewalks will have to be put in soon. He was also empowered to tear out all condemned walks.

Mr. Flynt asked permission, which was given him, to survey the city and install permanent monuments at every street intersection as reference points in surveying for sidewalk lines and grades.

Pass Merchants' License Ordinance.

A new ordinance was passed in regard to the licensing of traveling stores, auctioneers, and such merchants who come to the city and fraudulently claim that they are starting a permanent business. This section provides that any person not a freeholder in the city, or any person who has not resided here for one year immediately previous to starting a business, must give bond for \$500 that he will pay a traveling merchants' license for the full length of time he is in business, in case he does not remain in business six months or longer.

The Hanamo Telephone company asked permission to lay a cable under the alley running north and south between Main and Buchanan streets from Fifth street nearly to Seventh street, from there to carry the wires on poles to Ninth street and then continue them in an underground cable to Main. The company also wished to lay a lateral north from Seventh street, between the property of S. G. Gillam and W. W. Glass. The petition was received and placed on file.

Much Business Was Left Over.

A. O. Mason asked to be given the right to grant concessions at the fair grounds, which was given him. The matter of policing the grounds was also brought up, but deferred until another meeting.

A request was made for a traffic policeman on the business streets, but as the office could not be made permanent.

ment, the board did not feel that the temporary good would justify the expense.

A resolution was adopted, accepting from M. A. Lewis the deeds to land opening North Market street and awarding him five sewer permits and \$50.

Several other matters, the grading of streets where the property owners put in curbing and gutter, the building of a concrete bridge on the west side of the road leading to Oak Hill cemetery, petitions for street lights, insurance taxes and an ordinance for laying lead pipe from water mains to the curbing boxes, were referred to their proper committees to be reported on at the next meeting.

RAVENWOOD CHAUTAUQUA.

Entertainment to Be Given Third Week in August.

The management of the Ravenwood Chautauqua has announced the dates for this year, August 18 to 23. The 1913 event was highly satisfactory, and the committee hopes to have a much superior one this season. At a general meeting of the business men held the first of the week the following officers and committees were appointed:

President—I. A. Goodson.

Secretary—L. L. King.

Treasurer—Henry McMullin.

Grounds committee—J. L. McMullin, A. H. Stoneburner and William Wygal.

Advertising committee—W. A. Conn, H. McMullin and G. J. Jones.

Ticket committee—S. P. Ross, J. C. Peterson, Dr. Hunterson, George Houchens and F. G. Graf.

TO GET OVER \$8,000.

Nodaway County Will Receive That Amount On Good Roads Fund.

Nodaway county will receive \$3,312.50 from the state good roads funds this year, the money having been received from the sale of option stamps and fees for registration of corporations.

The apportionment is based upon assessed valuation for the registration fund, and according to the school enumeration for the option stamp fund. A total of \$28,000 from the option stamp fund is divided among the counties, and a total of \$175,000 from the registration fees, making a total of \$203,000. The amount received by Nodaway county of the proceeds of the sale of option stamps is \$232.98, and from the corporation registration fees \$3,079.52.

TRousERS WERE BLOWN OFF.

Farmer is Victim of Shenandoah Storm's Caprice, According to the World.

The Shenandoah World, in recounting the damages done by the tornado this week, vouches for the following story:

One of the sadder incidents of the storm was the loss that came to Gilbert Cozad, son of Jerry Cozad, living east and south of town.

The storm came up so suddenly that Gilbert, who was in the barn at the time, was unable to reach the house and had to stay in the barn. Some of the barn doors and other debris were blown in upon him, and when the wind subsided he picked himself out of the wreckage he found some mischievous freak of the storm had torn his trousers off and he arrived at the house panting and pantless.

Langsdorf to Leave.

Mr. and Mrs. Herbert Langsdorf and son will leave Sunday morning for Plattsburg to make their home. Mr. Langsdorf has been with the Berney Harris Clothing company for the past year, and at Plattsburg he will be associated with the A. Swike Mercantile company.

Mrs. Wray Improving.

Mrs. Mary C. Wray of Hopkins, who was injured Friday morning in an auto accident at Hopkins, was much improved Saturday. When the accident happened internal injuries were feared, but her condition now is relieved of doubt and much better.

Skidmore Closes a Successful First Season Tonight—Plan Another For Next Year.

R. A. Kinnaird's Pupils Visit Stock Farms—Farm Management Include Study of Rural Credit.

The Chautauqua season in Nodaway county opened this week, the Skidmore assembly commencing last Sunday, the one at Elmo, Wednesday and the one at Pickering Thursday. The Chautauqua at Skidmore is the first one and has been a very successful one there. Plans will be made for one to be given next year. The reports from both Pickering and Elmo are that their daily sessions are being well attended.

The assembly at Skidmore will close today and this afternoon's program consisted of selections by the Arion Male Quartet and a lecture by Morton H. Pemberton, of Columbia, Mo. The evening program will be given by the Arion Male Quartet.

Pickering is to have a big day Sunday at its chautauqua. It is to have a union meeting of the Christian and Methodist Episcopal churches in the morning in the chautauqua tent and the afternoon's and evening's programs are to be given by the Burgess Dramatic company. The chautauqua will close Tuesday at Pickering.

Sunday will also be a big day at Elmo. All of the Sunday schools of that town and the Sunday schools of Dawsonville, North Grove and Tabor are to meet in union service at the chautauqua tent, this being the first time in the history of Lincoln township when all of the Bible schools met in one great assembly. The assembly at Elmo will close Monday.

The next chautauqua to be held in the county is to be at Barnard July 29 to August 3.

ALL STARS TO PLAY SHENANDOAH

Game Is at Riffe's Park Sunday—Iowa Battery Formerly Played in the Mink League.

There will be a baseball game tomorrow afternoon at Riffe's Park between the Maryville All Stars and Shenandoah.

Shenandoah has a good team and a close game is expected by the local players. The batteries probably will be All Stars—Carmichael and Carmichael; Shenandoah—Johnson and Castle. Johnson and Castle were formerly players on the Shenandoah team in the Mink League. Johnson was one of the best pitchers in the league.

To Visit Here.

Mr. and Mrs. W. J. Crigger of Crescent, Ia., will arrive in the city Sunday to spend several weeks with Mrs. Crigger's parents, Mr. and Mrs. George B. King, northwest of Maryville.

The class first visited the Wilson herd of Herefords. Mr. Kinnaird said they saw there some very good classes of aged cows, junior yearling bulls and the individual herd header, Uncus. Then the Caldwell farms were visited, where the class studied the Angus cattle. The large herd, including members of many of the principal families, the Heatherbloom, Queen Mother, Erica, Blackcap and Blackbird families, furnished ample opportunity for study.

The class judged and scored the animals at both places, and listened to lectures on their history. Just before leaving the Caldwell place the class was invited to the lawn, where they were given a light lunch of ham sandwiches and lemonade.

Thousands All Over Country Responding to "SOS" Wireless Sent Out by Churches

GO TO CHURCH!

Think for one minute what this world would be without churches. Are you doing your part to support them by your attendance? In recent years there has been a surprising falling off in church attendance figures. People stayed away from church—some because they had lost faith, but the great number simply because they had become apathetic. It was time that this apathy ceased. And it has to a large extent. With the advent of the GO TO CHURCH movement there has been a splendid awakening all over the country. Religion had only been dormant.

The GO TO CHURCH call found a ready response. New churches have sprung up in many quarters. The old churches, which for some time past were remarkable for their empty pews, suddenly took on new life. The pews were filled. Men and women who had not been to church in a decade came back to the fold. They brought with them others.

THE CHURCHES SENT OUT A "SOS" WIRELESS. NEWS-PAPERS HELPED. SO DID THE TELEPHONE AND TELEGRAPH COMPANIES. SO DID THE TRADESMEN. NOVEL IDEAS FOR WORKING UP ENTHUSIASM WERE PLENTIFUL. IN CHICAGO, FOR INSTANCE, FIFTY BARBERS IN SHOPS ON THE WEST SIDE WERE ENLISTED. THE PLAN OF INTERESTING THEM WAS HIT UPON BY A CLERGYMAN WHILE UNDERGOING A RAZOR OPERATION. HE ASKED THE BARBER TO REFER TO THE GO TO CHURCH MOVEMENT WHILE SHAVING HIS CUSTOMERS AND THE ARTIST OF THE STROP CONSENTED. SHOP AFTER SHOP WAS VISITED UNTIL FIFTY AGREED TO SPEAK ABOUT THE MOVEMENT. THE PLAN WORKED WONDERFUL RESULTS. ALL THAT THE PEOPLE WANTED WAS A REMINDER. THE STORY OF CHICAGO IS THE STORY OF HUNDREDS OF OTHER PLACES. EVERYBODY HELPED THE THING ALONG. DO YOUR PART.

GO TO CHURCH!
Keep GOING TO CHURCH!

has made, the others being to the Percheron farm of J. F. Roelofson, Short Horn farms of the Bellows brothers, Jersey dairy of Thomas Willes and the Robinson Poland-China farm. Mr. Kinnaird says that there probably is no county in the state which has a larger and more representative class of first class live stock of all kinds than Nodaway, and he appreciates the way in which the owners of the farms visited have given their time to the class, making its practical work possible. Other trips will be made yet this summer.

Mr. Kinnaird's farm management class is also unique. In it is taken up the study of the different types of farming, and especially those adapted to the corn belt. All such matters as keeping up the soil fertility, crop rotations, farm accounts, agricultural co-operation and rural credit, the equipment of a farm and care of machinery, the distribution of farm labor and problems of efficiency are studied.

Takes Inventory of Farms.

Some of the members of this class are doing special work. One man is making a study of farm accounts. He has visited several typical farms near Maryville and made an inventory of the year's business, sales of crops and live stock, yields and the use to which crops have been put, cost of labor, and such questions and has figured the net income of each farm.

Another member of the class is studying rural credit. This includes the features in the new federal reserve act that are of benefit to farmers, the bills that have been introduced in congress concerning farm loans and rural credit banks, and a study of the rural credit systems of France and Germany, taken from the report of the American commission.

POSTMASTER AT PARNELL.

Mrs. George Wilson Selected to Succeed Thomas A. Brashears—Will Take Office August 1.

Mrs. George Wilson has been selected as the postmaster at the Parnell postoffice. She will take charge August 1, and will succeed T. A. Brashears. Parnell is a fourth class post office and Mrs. Wilson received the highest grade at the civil service examination held recently.

K. OF C. PICNIC.

Big Affair to Be Held Sunday, July 26, at Normal Park.

The Knights of Columbus are arranging for a big picnic to be given Sunday, July 26, at Normal park. Dinner will be served at noon, and the Knights have invited the entire congregations of both St. Patrick's and St. Mary's churches to enjoy the occasion with them. A number of out-of-town Knights and their families will be here to attend.

FIRST UNION SERVICE.

Sunday Evening On Main Street—Sermon by Rev. Harkness.

The first of the union open-air Sunday evening services will be held tomorrow night on the court house square. The sermon will be given by the Rev. S. D. Harkness, pastor of the First Presbyterian church. The music is in charge of the First Baptist choir, and there will be a chorus number by the choir, "The Lord is My Shepherd," and a duet, "The Lord is My Light," by Miss Marie Jones and Orlo Quinn.

The original plan was to hold the services in the Franklin school yard, and this was changed to the Main street place, and the people will be seated directly west of the band stand.

Give Banner to Prize Sunday School.

The county committee of the Nodaway County Sunday School association has ordered a velvet banner, 17x30 inches, to be given to the Sunday school which has the highest per cent of its enrollment in attendance at the county convention at Burlington Junction July 28 and 29.

The percentage will be based on the reports made to the county secretary this spring. There are 71 schools in the county. The program will be ready for publication early next week.

Visiting in Maryville.

Madison Young of St. Joseph arrived in Maryville Saturday to visit his mother, Mrs. Amanda Young of East First street.

Mrs. Andy Fink, Mrs. R. T. Noakes and Miss Bernice Duncan of Wilcox spent Saturday visiting in Maryville.

Mrs. James Leffler of Wilcox spent Saturday visiting friends in Maryville.

THE FREE EVENTS

FAIR MANAGEMENT PUTS \$5,000 INTO PUBLIC ATTRACTIONS.

GROUNDS ARE IN CITY

It Means Good Police Regulation—Big Premium Lists Will Be Ready Next Week.

The Nodaway County Fair and Agricultural association is going to put \$5,000 into free attractions for the five days of the fair next September. And the best attractions obtainable are being secured.

J. A. Ford, secretary of the association, said today that he had just wired a woman aviator, who offers to make two flights a day for four days, for her contract. Any number of aviators have been trying to book dates here, and the association is sure of securing competent fliers. Another aerial event which is practically a certainty is a balloon ascension by a man and a bear who make the parachute drop together.

The secretary had expected to have the premium lists for the stock shows and agricultural exhibits ready today, but could not do so. They will be ready by next Tuesday at the latest. The liberal way in which the merchants are subscribing funds is making it possible to get out very attractive premium lists, Mr. Ford says. This money is being subscribed with the understanding that it is to go to the agricultural side of the fair, and Mr. Ford is going to make a statement showing that every dollar of it is used for that purpose.

A. O. Mason, owner of the grounds and president of the association, has just discovered something that doubly insures the fair from being free from gambling or attractions of doubtful character. It has been his intention from the start to bar all such things from the fair, and in looking over his deeds to the grounds he has discovered that they are within the city limits. This gives the city officials power to police the grounds and stop anything should it prove to be objectionable. Mr. Mason appeared before the council meeting last night to discuss the matter of policing the grounds, and extra men will be commissioned to look after them.

The work on the cattle sheds, horse sheds and fence will begin Monday, and the amphitheater will be finished Wednesday.

GRADUATING EXERCISES

Of the Business College to Be Held Next Friday Evening at the Christian Church.

The graduating exercises of the Maryville Business college will be held at the First Christian church next Friday evening at 8 o'clock.

Iron Traffic Policemen.

As a result of the continued disregard of the rules of the road by the motorists, and in fact the drivers of all other vehicles on the streets of Maryville, a petition was presented to the board of aldermen last night to station traffic policemen on one or two downtown street corners again. The petition was turned down for valid reasons.

The aldermen thought that traffic policemen would be an unnecessary expense. The cost of keeping them permanently would be too great, and past experience has shown that as soon as the policemen are off duty, the drivers of cars begin to speed up and cut corners in any and every fashion.

One of the aldermen suggested that a post of some kind be placed at the intersection and all persons made to keep to the right of it—and made to do so by reason of arrests from the very start.

This suggestion is a good one, and it is practical is proved by the fact that that very thing is done in the cities. At many busy corners an iron post, a safety area built up like a sidewalk, or some such obstruction is placed at the street intersection. On some streets the posts are ornamental light standards.

Such an obstruction is just enough in the way to cause drivers to cut down their speed, to some extent at least, and not enough in the way to obstruct traffic. If some such arrangement could be made at the corners of Third and Main and Fourth and Main streets here, and then arrests made if the traffic rules were violated, it probably would be the best solution of the question. The expense of paying policemen would be obviated, the posts would be more effective and last longer than marks painted on the pavement, and the results would be permanent.

Maryville would do well, too, to enforce a rule requiring motorists to signal once with a horn if they intend to go straight ahead at a crossing, twice if they are going to turn to the right and three times if to the left. It would not only improve the local situation, but the habit acquired might avoid motorists trouble when they go to cities where such a law is in force.

Y. M. C. A. Aids Men Earn \$13,000.

The Y. M. C. A. at Columbia is doing mighty good work. Through its efforts in finding employment for University of Missouri students who are working their way through school it enabled 150 men to earn approximately \$13,000 the past school year, according to the Columbia Tribune. The Y. M. C. A. employment bureau has helped many of the honor students in recent years to find a foothold and keep in line. It is planning still greater activities in this direction for the coming school year.

St. Louis Visitors.

Misses Emma and Margaret Paschal of St. Louis, who have been visiting their sister, Mrs. W. M. Howden of Skidmore, arrived in Maryville Saturday to visit at the home of Dr. and Mrs. Charles T. Bell and other friends.

We are pleased to hear that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Cataract. Hall's Cataract Cure is the only positive cure now known to the medical fraternity. Cataract being a constitutional disease requires a constitutional treatment. Hall's Cataract Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient a strong body to bear the constitutional treatment.

BEEF PLENTIFUL IN S. AMERICA.

With Local Supply Shortening, United States Imports More and More From Uruguay.

With porterhouse steak at 50 cents a pound retail as an imminent fact, the beef eaters of the world are getting somewhat worried, especially those who happen to be domiciled in the United States. Argentina is supplying some of her product, but when the enormous total of Uncle Sam's consumption is taken into consideration the quantity imported is not even as much as the proverbial drop in the bucket. Where can we look for more meat? Is the all-absorbing question.

In this connection it is interesting to note an article in the July number of the Monthly Bulletin of the Pan American Union, Washington, D. C., in which, under the title of "Uruguay as a Cattle Country," some interesting details as to the live stock industry of this rich little republic of South America are given.

Something over a hundred years ago the hacendados (ranchmen) of Uruguay complained to the government that more than 450,000 head of cattle were being killed annually for their hides alone! The carcasses were thrown to the dogs, or left on the rolling pampas for the vultures to devour. Beef in Uruguay was so plentiful that it was something of a nuisance evidently. Of course that day has passed, but they still have cattle enough down there to convert some 700,000 head into 113,000,000 pounds of jerked beef in one year, most of which is sold to Brazil, Cuba, Porto Rico, and other tropical countries. Think of the juicy tenderloins of 700,000 head of cattle going into jerked beef!

Again there are many thousands of Uruguayan cattle annually converted into extract of beef. Perhaps but few people know that the first great factory for the production of beef extract known to the world was established at Fray Bentos, a little city on the Uruguay river, about 100 miles above Buenos Aires, the cosmopolitan capital of Argentina, and that it is still doing business "at the same old stand," although the "stand" has grown enormously larger since the time it became the pioneer in the beef tea industry. The world-wide reputation of this concern is perhaps largely due to the high manner of the cattle of Uruguay, as well as to the cleanly and scientific manner of the preparation of the product. The writer of the article in the Bulletin states:

"Fray Bentos has been called the greatest kitchen in the world. On some days 2,500 head of cattle are slaughtered, then treated so as to get the finest meat from them, the bones and ribs, the intestines, tails, sinews, are assured you if you come to Crane's. Tomorrow evening, together with the other churches of Maryville, our congregation will meet in front of the band stand to hear Mr. Harkness, the preacher for the evening.

HORSES IN HOT WEATHER.

Women's League Issues Bulletin of Suggestions to Owners.

These suggestions for the treatment of working horses in hot weather have been published by the New York Women's League for Animals.

1. Load lightly and drive slowly
2. Stop in the shade if possible.
3. Water your horse as often as possible. So long as a horse is working water in moderate quantities will not hurt him. But let him drink only a few swallows if he is going to stand still.

4. When he comes in after work sponge off the harness marks and sweat, his eyes, his nose and mouth and the dock. Wash his feet, but not his legs.

5. If the thermometer is 75 degrees or higher, wipe him all over with a wet sponge. Use vinegar water if possible. Do not turn the hose on him.

6. Saturday night give a bran mash, cold, and add a tablespoon of salt-peter.

7. Do not use a horse hat unless it is a canopy-top hat. The ordinary bell-shaped hat does more harm than good.

8. A sponge on top of the head, or even a cloth, is good if kept wet. If dry it is worse than nothing.

9. If the horse is overcome by heat, get him into the shade, remove harness and bridle, wash out his mouth, sponge him all over, shower his legs and give him four ounces of sweet spirits of ammonia, or two ounces of water, or give him a pint of coffee, warm. Cool his head at once, using cold water; or, if necessary, chopped ice wrapped in a cloth.

10. If the horse is off his feed, try him with two quarts of oats mixed with bran and a little water; and add a little salt or sugar. Or give him oatmeal gruel or barley water to drink.

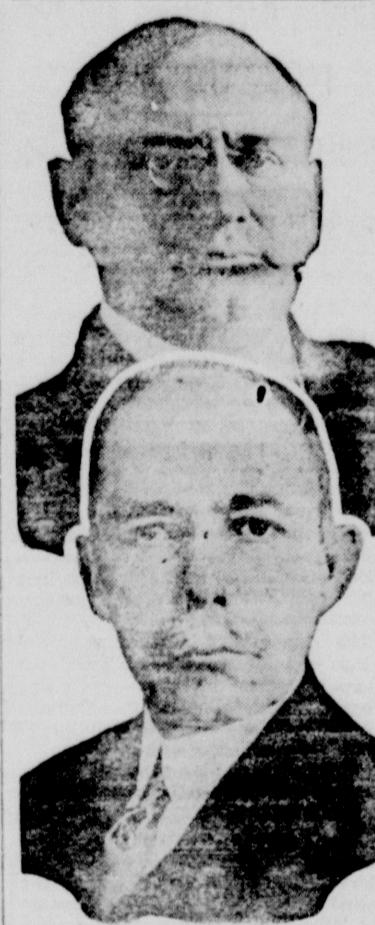

11. Watch your horse. If he stops sweating suddenly, or if he breathes short and quick, or if his ears droop, or if he stands with his legs braced sideways, he is in danger of heat or sunstroke and needs attention at once.

12. If it is so hot that the horse sweats in the stable at night, tie him outside. Unless he cools off during the night he cannot well stand the next day's heat—Indianapolis News.

Mr. and Mrs. A. A. Thummel, living near Parnell, came to Maryville Saturday in their car. They were accompanied by Mr. and Mrs. Frank Reavis, who have been visiting them.

TREND OF TRADE IS
IN RIGHT DIRECTION
Actual Progress in Business
Lines is Still Slow.

New York, July 18.—Dun's Review says: Actual progress in business is still slow, yet with the trend in the right direction optimism is becoming pronounced. The improvement in sentiment is primarily due to the prospect of another year of bountiful harvests. Apparently the outgo of gold to Europe has culminated and sterling exchange has steadily declined on increased offerings of commercial remittance and drawing of finance bills in anticipation of shipment of domestic staples. Both money and commercial paper are rather firmer, but rates average lower than a year ago.

The most encouraging feature of the general situation is the further betterment in the iron and steel industry. There has been an unusual influx of buyers in the dry goods markets, due to the Claffin sale and the opening of many spring lines. As a whole, values remain steady, with an upward trend in some directions, but operations are still conservative. Footwear factories are fairly well employed. Still lower price levels were reported by the leading cereals, although complaints of rust damage in the northwest gave temporary support to wheat, and cotton also tended downward.

Failures this week are 392. Bank clearings this week amounted to \$2,772,018,633, a gain of 4.4 per cent over last year.

Assailant of Girl Hanged by Mob.

Baker, Ore., July 18.—An unidentified man who had attacked the eight-year-old daughter of a farmer was taken from his captors, a party of ranchers, by twelve masked men and lynched. The victim of the hanging had been caught earlier in the day and was being taken to jail at Whitney.

U.S. WORKING FOR
PEACE IN MEXICO

Administration Is In Communi-
cation With Zapata.

NOTABLE ABSENCE OF CRIME.

Unprecedented Number of Suicides
and Attempted Ones in Mexico City
Since Huerta Left—Dictator Re-
mains Aboard Train.

Washington, July 18.—Every in-
fluence and diplomatic agency at the
disposal of the United States govern-
ment was working for immediate
peace in Mexico.

The administration is convinced that with the elimination of Huerta, for which it has been steadily pressing for more than a year, the various factions in Mexico will be drawn together. To aid in this and assure restoration of normal conditions without further bloodshed officials here are exerting themselves to smooth the way for a new and stable administration in Mexico, which shall be recognized by the powers of the world.

Not only is the American government at this moment counselling General Carranza, the Constitutional chief, to arrange with Francisco Carbajal, Huerta's successor, for the peaceful transfer of the government at Mexico City to the Constitutionalists without further fighting, but it became known that the administration is indirectly in communication with Emiliano Zapata, leader of the revolution in southern Mexico.

Zapata, according to reliable reports to the state department, has 24,000 men, and though most of them are poorly equipped, they would constitute a serious menace to a new government at Mexico City if they remained in revolution.

Huerta Remains Aboard Train.

Puerto Mexico, July 18.—When General Victoriano Huerta, who is still sharp curve in the road. The machine his country and share the exile of General Porfirio Diaz, whom he escorted to the coast three years ago, is yet unknown, except perhaps to himself. Captain Kohler of the German cruiser Dresden offered him his ship "for any use he cared to make of it," but General Huerta merely thanked him, adding that he would return his call to-day.

British Vice Consul Gemmill also officially called on Huerta and presented him a message, presumably an offer of refuge on the British cruiser Bristol. Huerta read it and expressed pleasure at the consideration being shown him. Local officials calling on General Huerta were few in number, the only one of importance being General Rincon, commander of the local garrison. Commander Gabriel A. Carvallo of the Mexican gunboat Zaragoza, with his staff, also called, but General Huerta was weary of holding receptions and asked to be excused.

Epidemic of Suicides.

Mexico City, July 18.—An unprecedented number of suicides and attempted suicides have taken place since the fall of the Huerta government. In the last two days four suicides and three attempts have been reported. The residents are appalled, as such attempts are rare here. There has been a notable lack of crime during the same period and the tranquillity of the capital continues undisturbed, although a feeling of uneasiness prevails.

FIVE WOMEN INJURED

Auto Takes Plunge Over Embankment
at St. Paul.

St. Paul, July 18.—Five club women of Minneapolis were injured when an automobile in which they were riding plunged over an embankment at a speed of nearly 300 feet.

Miss Mae Wessberg, librarian at the summer branch of the Minneapolis public library, was most seriously injured and may die.

The other injured women are: Miss Gratia Countryman, librarian, Minneapolis public library; Mrs. Manley L. Fosseen, wife of State Senator Fosseen; Mrs. R. A. Swain and Miss Grace E. Gerrish.

Paris, July 18.—The two sisters who were born May 22 joined together, back to back, being united in the lumbar region, were cut apart. The operation was performed by Dr. Mignot, assisted by Dr. C. W. Du Bouchet, chief surgeon of the American hospital.

The most delicate part of the operation was the dissection of the intestines, which at one point were united for a space of an inch and a quarter.

Quimet Goes Around Course in 75.

Newton, Mass., July 18.—Francis Quimet, national open golf champion, made a remarkable low medal score in the third round of the Massachusetts amateur golf championship at Braeburn. In defeating G. H. Pushee he was around the course in 75, winning by a score of 5 up and 2 to play.

PITCHED BATTLE
IN ARKANSAS

Striking Coal Miners and Sympathizers Rout Guards.

PROPERTY DAMAGE IS HEAVY.

Tipples of Three Collieries Near Fort Smith Destroyed by Fire and Dynamite—Rioting Outcome of Disturbances Over Open Shop.

Fort Smith, Ark., July 18.—After a pitched battle between several hundred striking coal miners and sympathizers and 100 guards stationed at the Prairie Creek mines of the Mammoth Vein Coal company near Fort Smith, which ended in the rout of the guards, tipples of three mines were destroyed by fire and dynamite. The property damage is estimated at \$200,000. So far as can be ascertained no one was killed or wounded in the fighting. The mine guards retreated after their ammunition was exhausted.

The rioters held possession of the mines several hours, wrecking the plants with torch and explosives. The properties are deserted. Preparations are being made to send additional armed guards to the mines.

County officials went to the scene, but before they arrived the attacking party had dispersed.

The rioting was a culmination of disturbances which have occurred at intervals since the contract with the United Mine Workers was abrogated last March and announcement was made that the properties owned by the Bachelder-Denman Coal company, but under lease to the Mammoth Vein company, would be operated on "an open shop" basis.

MRS. CA MAN FREED ON BOND

Wife of Physician Charged With Manslaughter in First Degree.

Freeport, N. Y., July 18.—Mrs. Florence Conklin Carman, indicted on the charge of manslaughter in the first degree in connection with the killing of Mrs. Louise Bailey, returned here temporarily a free woman. She was released for trial under \$20,000 bail fifteen minutes after the grand jury made known its findings to Justice Van Siclen, sitting in the criminal branch of the supreme court at Sherman act.

Administration senators continued their efforts to change the minds of some of their colleagues who have expressed opposition to Mr. Jones. It was reported their efforts thus far had not met with success.

There was considerable informal talk among senators of the advisability of Democratic caucus in the Jones case, inasmuch as Mr. Wilson wants his confirmation.

ASK RECEIVER FOR HAVEN

Minority Stockholders of Road File Petition in Boston.

Boston, July 18.—The appointment of a receiver to prosecute claims aggregating \$306,000,000 against defendant directors of the New Haven railroad is asked in a suit filed in the Massachusetts supreme court.

The bill of complaint declares that the defendants, on account of breach of directors' duty, chiefly through causing the New Haven to acquire illegally its Boston and Maine, trolley and steamship properties, are bound to pay the New Haven \$162,000,000 withdrawn therefrom wrongfully. It is alleged that the losses resulting from these acquisitions approximate \$102,000,000, and that under the federal antitrust act the New Haven is entitled to recover from the defendants three-fold that sum—\$306,000,000.

Peaches and Oratory Wins Meet.

Duluth, July 18.—Georgia peaches and oratory won the 1915 convention of the National Association of Building Owners and Managers for Atlanta at the closing session of the convention here. All of the executive officers were chosen unanimously to succeed themselves. Choosing of the convention city brought out great enthusiasm and Omaha, St. Louis and Atlanta all made a good fight. The work of the Georgia delegates, who passed a half carload of peaches during the convention and the whirlwind southern oratory by a half dozen campaigners clinched the election on the first ballot.

WILL FILE DISSOLUTION SUIT.

Washington, July 18.—After two hours' conference between Attorney General McReynolds and T. W. Gregory, special assistant in charge of the New Haven case, it seemed practically certain that negotiations had failed and that the department of justice would begin its Sherman lawsuit to dissolve the New Haven system within the next few days.

INCORPORATED BLAMED FOR COLLISION.

London, July 18.—The British admiralty court found the British steamship Incor incorporated responsible for the collision on June 17 with the North German Lloyd steamship Kaiser Wilhelm II just after that liner had left Southampton for Cherbourg and New York.

FEDERALS SURRENDER SAN LUIS POTOSI.

Brownsville, Tex., July 18.—San Luis Potosi has been surrendered to the Constitutionalists, according to unofficial dispatches received in Matamoros.

Judges John G. Thornhill and Floyd Westfall, members of the county court, went to Elmo Saturday to look over some bridges and roads.

MAYOR SUGGESTS PLAN AT MEETING LAST NIGHT.

COMPROMISE PROBABLE

Friday's Special Session Given Over to Delayed Business—Points of Contention Not Discussed.

Just before the adjournment of last night's special council meeting Mayor U. S. Wright told the board of aldermen that he was willing to make concessions in the matter of appointments that has caused so much trouble during the present administration, and that he hoped the board could agree with him in a satisfactory arrangement.

Mr. Wright said that from the attitude the board had taken at the last meeting he thought that it was firmly opposed to him in the matter of appointments, and that as long as the present conditions remain the effective work of the council would be blocked. He said that he had no ill feeling toward any member of the board and did not want to carry the troubles any further as a matter of personalities between himself and anybody. Therefore, for the best interests of the city he was willing to make concessions, and hoped the board would get together with him and in a friendly way effect a compromise.

Aldermen Indorse Mayor's Plan.

Every member of the board heartily indorsed this plan. The president of the board will call an informal meeting some time next week, and the aldermen, with the mayor, will discuss the matter in a tentative way to be acted upon at the next meeting.

Nothing was said in the meeting, or by the mayor or any of the aldermen afterward, as to what the nature of the compromise might be.

Last night's meeting was taken up with unfinished business. Among the most important matters settled were some sidewalk questions. The city engineer was instructed to look up all old ordinances that were properly drawn that provided for the building of new sidewalks, and to re-notify the property owners that the walks must be put down. This will mean that about fifteen blocks of new sidewalks will have to be put in soon. He was also empowered to tear out all condemned walks.

Mr. Flynt asked permission, which was given him, to survey the city and install permanent monuments at every street intersection as reference points in surveying for sidewalk lines and grades.

Pass Merchants' License Ordinance.

A new ordinance was passed in regard to the licensing of traveling stores, auctioneers, and such merchants who come to the city and fraudulently claim that they are starting a permanent business. This section provides that any person not a freeholder in the city, or any person who has not resided here for one year immediately previous to starting a business, must give bond for \$500 that he will pay a traveling merchants' license for the full length of time he is in business, in case he does not remain in business six months or longer.

The Hanamo Telephone company asked permission to lay a cable under the alley running north and south between Main and Buchanan streets from Fifth street nearly to Seventh street, from there to carry the wires on poles to Ninth street and then continue them in an underground cable to Main. The company also wished to lay a lateral north from Seventh street, between the property of S. G. Gilliam and W. W. Glass. The petition was received and placed on file.

Much Business Was Left Over.

A. O. Mason asked to be given the right to grant concessions at the fair grounds, which was given him. The matter of policing the grounds was also brought up, but deferred until another meeting.

A request was made for a traffic policeman on the business streets, but as the office could not be made permanent.

neant, the board did not feel that the temporary good would justify the expense.

A resolution was adopted, accepting from M. A. Lewis the deeds to land opening North Market street and awarding him five sewer permits and \$50.

Several other matters, the grading of streets where the property owners put in curbing and gutter, the building of a concrete bridge on the west side of the road leading to Oak Hill cemetery, petitions for street lights, insurance taxes and an ordinance for laying lead pipe from water mains to the curbing boxes, were referred to their proper committees to be reported on at the next meeting.

The council adjourned to meet in special session August 6 for the purpose of granting a saloon license to John Kane, whose present license expires on that day, the day previous to the regular monthly meeting of the council.

RAVENWOOD CHAUTAUQUA.

Entertainment to Be Given Third Week in August.

The management of the Ravenwood Chautauqua has announced the dates for this year, August 18 to 23. The 1913 event was highly satisfactory, and the committee hopes to have a much superior one this season. At a general meeting of the business men held the first of the week the following officers and committees were appointed:

President—I. A. Goodson.
Secretary—L. L. King.
Treasurer—Henry McMullin.

Grounds committee—J. L. McMullin, A. H. Stoneburner and William Wygal.
Advertising committee—W. A. Conn, H. McMullin and G. J. Jones.

Ticket committee—S. P. Ross, J. C. Peterson, Dr. Hunterson, George Houchens and F. G. Graf.

TO GET OVER \$3,000.

Nodaway County Will Receive That Amount On Good Roads Fund.

Nodaway county will receive \$3,312.50 from the state good roads funds this year, the money having been received from the sale of option stamps and fees for registration of corporations. The apportionment is based upon assessed valuation for the registration fund, and according to the school enumeration for the option stamp fund. A total of \$28,000 from the option stamp fund is divided among the counties, and a total of \$175,000 from the registration fees, making a total of \$203,000. The amount received by Nodaway county of the proceeds of the sale of option stamps is \$222.98, and from the corporation registration fees \$3,079.52.

TRousERS WERE BLOWN OFF.

Farmer is Victim of Shenandoah Storm's Caprice, According to the World.

The Shenandoah World, in recounting the damages done by the tornado there this week, vouches for the following story:

One of the sadder incidents of the

storm was the loss that came to Gilbert Cozad, son of Jerry Cozad, living east and south of town.

The storm came up so suddenly that

Gilbert, who was in the barn at the time, was unable to reach the house

and had to stay in the barn. Some of

the barn doors and other debris were

blown in upon him, and when the wind

subsided and he picked himself out of

the wreckage he found some mischievous freak of the storm had torn

his trousers off and he arrived at the

house panting and pantless.

Langsdorf to Leave.

Mr. and Mrs. Herbert Langsdorf and son will leave Sunday morning for Plattsburg to make their home. Mr. Langsdorf has been with the Berney Harris Clothing company for the past year, and at Plattsburg he will be associated with the A. Swike Mercantile company.

Mrs. Wray Improving.

Mrs. Mary C. Wray of Hopkins, who was injured Friday morning in an auto accident at Hopkins, was much improved Saturday. When the accident happened internal injuries were feared, but her condition now is relieved of doubt and much better.

Skidmore Closes a Successful First Season Tonight—Plan Another For Next Year.

The Chautauqua season in Nodaway county opened this week, the Skidmore assembly commencing last Sunday, the one at Elmo, Wednesday and the one at Pickering Thursday. The Chautauqua at Skidmore is the first one and has been a very successful one there. Plans will be made for one to be given next year. The reports from both Pickering and Elmo are that their daily sessions are being well attended.

The assembly at Skidmore will close today and this afternoon's program consisted of selections by the Arion Male Quartet and a lecture by Morton H. Pemberton, of Columbia, Mo. The evening program will be given by the Arion Male Quartet.

Pickering is to have a big day Sunday at its chautauqua. It is to have a union meeting of the Christian and Methodist Episcopal churches in the morning in the chautauqua tent and the afternoon's and evening's programs are to be given by the Burgess Drama Company. The chautauqua will close Tuesday at Pickering.

Sunday will also be a big day at Elmo. All of the Sunday schools of that town and the Sunday schools of Dawsonville, North Grove and Tabor are to meet in union service at the chautauqua tent, this being the first time in the history of Lincoln township when all of the Bible schools met in one great assembly. The assembly at Elmo will close Monday.

The next chautauqua to be held in the county is to be at Barnard July 29 to August 3.

ALL STARS TO PLAY SHENANDOAH

Game Is at Riffe's Park Sunday—Iowa Battery Formerly Played in the Mink League.

There will be a baseball game tomorrow afternoon at Riffe's Park between the Maryville All Stars and Shenandoah.

Shenandoah has a good team and a close game is expected by the local players. The batteries probably will be All Stars—Carmichael and Carmichael; Shenandoah—Johnson and Castle. Johnson and Castle were formerly players on the Shenandoah team in the Mink League. Johnson was one of the best pitchers in the league.

To Visit Here.

Mr. and Mrs. W. J. Crigger of Crescent, Ia., will arrive in the city Sunday to spend several weeks with Mrs. Crigger's parents, Mr. and Mrs. George E. King, northwest of Maryville.

Thousands All Over Country Responding to "SOS" Wireless Sent Out by Churches

GO TO CHURCH!

Think for one minute what this world would be without churches. Are you doing your part to support them by your attendance? In recent years there had been a surprising falling off in church attendance figures. People stayed away from church—some because they had lost faith, but the great number simply because they had become apathetic. It was time that this apathy ceased. And it has to a large extent. With the advent of the GO TO CHURCH movement there has been a splendid awakening all over the country. Religion had only been dormant.

The GO TO CHURCH call found a ready response. New churches have sprung up in many quarters. The old churches, which for some time past were remarkable for their empty pews, suddenly took on new life. The pews were filled. Men and women who had not been to church in a decade came back to the fold. They brought with them others.

THE CHURCHES SENT OUT A "S O S" WIRELESS NEWS-PAPERS HELPED. SO DID THE TELEPHONE AND TELEGRAPH COMPANIES. SO DID THE TRADESMEN. NOVEL IDEAS FOR WORKING UP ENTHUSIASM WERE PLENTIFUL. IN CHICAGO, FOR INSTANCE, FIFTY BARBERS IN SHOPS ON THE WEST SIDE WERE ENLISTED. THE PLAN OF INTERESTING THEM WAS HIT UPON BY A CLERGYMAN WHILE UNDERGOING A RAZOR OPERATION. HE ASKED THE BARBER TO REFER TO THE GO TO CHURCH MOVEMENT WHILE SHAVING HIS CUSTOMERS. AND THE ARTIST OF THE STROP CONSENTED. SHOP AFTER SHOP WAS VISITED UNTIL FIFTY AGREED TO SPEAK ABOUT THE MOVEMENT. THE PLAN WORKED WONDERFUL RESULTS. ALL THAT THE PEOPLE WANTED WAS A REMINDER. THE STORY OF CHICAGO IS THE STORY OF HUNDREDS OF OTHER PLACES. EVERYBODY HELPED THE THING ALONG. DO YOUR PART.

PRACTICAL WORK

NORMAL AGRICULTURAL DEPARTMENT MAKING A NAME.

has made, the others being to the Percheron farm of J. F. Roelofson, Short Horn farms of the Bellows brothers, Jersey dairy of Thomas Wiles and the Robinson Poland-China farm. Mr. Kinnaird says that there probably is no county in the state which has a larger and more representative class of first class live stock of all kinds than Nodaway, and he appreciates the way in which the owners of the farms visited have given their time to the class, making its practical work possible. Other trips will be made yet this summer.

Mr. Kinnaird's farm management class is also unique. In it is taken up the study of the different types of farming, and especially those adapted to the corn belt. All such matters as keeping up the soil fertility, crop rotations, farm accounts, agricultural co-operation and rural credit, the equipment of a farm and care of machinery, the distribution of farm labor and problems of efficiency are studied.

Takes Inventory of Farms.

Some of the members of this class are doing special work. One man is making a study of farm accounts. He has visited several typical farms near Maryville and made an inventory of the year's business, sales of crops and live stock, yields and the use to which crops have been put, cost of labor, and such questions and has figured the net income of each farm.

Another member of the class is studying rural credit. This includes the features in the new federal reserve act that are of benefit to farmers, the bills that have been introduced in congress concerning farm loans and rural credit banks, and a study of the rural credit systems of France and Germany, taken from the report of the American commission.

POSTMASTER AT PARNELL.

Mrs. George Wilson Selected to Succeed Thomas A. Brashears—Will Take Office August 1.

Mrs. George Wilson has been selected as the postmaster at the Parnell postoffice. She will take charge August 1, and will succeed T. A. Brashears. Parnell is a fourth class postoffice and Mrs. Wilson received the highest grade at the civil service examination held recently.

K. OF C. PICNIC.

Big Affair to Be Held Sunday, July 26, at Normal Park.

The Knights of Columbus are arranging for a big picnic to be given Sunday, July 26, at Normal park. Dinner will be served at noon, and the Knights have invited the entire congregations of both St. Patrick's and St. Mary's churches to enjoy the occasion with them. A number of out-of-town Knights and their families will be here to attend.

FIRST UNION SERVICE.

Sunday Evening On Main Street—Sermon by Rev. Harkness.

The first of the union open-air Sunday evening services will be held tomorrow night on the court house square. The sermon will be given by the Rev. S. D. Harkness, pastor of the First Presbyterian church. The music is in charge of the First Baptist choir, and there will be a chorus number by the choir, "The Lord is My Shepherd," and a duet, "The Lord is My Light," by Miss Marie Jones and Orlo Quinn.

The original plan was to hold the services in the Franklin school yard, and this was changed to the Main street place, and the people will be seated directly west of the band stand.

Give Banner to Prize Sunday School.

The county committee of the Nodaway County Sunday School association has ordered a velvet banner, 17x30 inches, to be given to the Sunday school which has the highest per cent of its enrollment in attendance at the county convention at Burlington Junction July 28 and 29.

The percentage will be based on the reports made to the county secretary this spring. There are 71 schools in the county. The program will be ready for publication early next week.

Visiting In Maryville.

Madison Young of St. Joseph arrived in Maryville Saturday to visit his mother, Mrs. Amanda Young of East First street.

Mrs. Andy Fink, Mrs. R. T. Noakes and Miss Bernice Duncan of Wilcox spent Saturday visiting in Maryville.

Mrs. James Leffler of Wilcox spent Saturday visiting friends in Maryville.

FAIR MANAGEMENT PUTS \$5,000 INTO PUBLIC ATTRACTIONS.

GROUNDS ARE IN CITY

It Means Good Police Regulation—Big Premium Lists Will Be Ready Next Week.

The Nodaway County Fair and Agricultural association is going to put \$5,000 into free attractions for the five days of the fair next September. And the best attractions obtainable are being secured.

J. A. Ford, secretary of the association, said today that he had just wired a woman aviator, who offers to make two flights a day for four days, for her contract. Any number of aviators have been trying to book dates here, and the association is sure of securing competent fliers.

The secretary had expected to have the premium lists for the stock show and agricultural exhibits ready today, but could not do so. They will be ready by next Tuesday at the latest.

The liberal way in which the merchants are subscribing funds is making it possible to get out very attractive premium lists, Mr. Ford says. This money is being subscribed with the understanding that it is to go to the agricultural side of the fair, and Mr. Ford is going to make a statement showing that every dollar of it is used for that purpose.

A. O. Mason, owner of the grounds and president of the association, has just discovered something that doably insures the fair from being free from gambling or attractions of doubtful character. It has been his intention from the start to bar all such things from the fair, and in looking over his deeds to the grounds he has discovered that they are within the city limits.

This gives the city officials power to police the grounds and stop anything that should prove to be objectionable.

Mr. Mason appeared before the council meeting last night to discuss the matter of policing the grounds, and extra men will be commissioned to look after them.

Iron Trafic Policemen.
As a result of the continued disregard of the rules of the road by the motorists, and in fact the drivers of all other vehicles on the streets of Maryville, a petition was presented to the board of aldermen last night to station traffic policemen on one or two downtown street corners again. The petition was turned down for valid reasons.

The aldermen thought that traffic policemen would be an unnecessary expense. The cost of keeping them permanently would be too great, and past experience has shown that as soon as the policemen are off duty, the drivers of cars begin to speed up and cut corners in any and every fashion.

One of the aldermen suggested that a post of some kind be placed at the intersection and all persons made to keep to the right of it—and made to do so by reason of arrests from the very start.

This suggestion is a good one, and that it is practical is proved by the fact that that very thing is done in the cities. At many busy corners an iron post, a safety area built up like a sidewalk, or some such obstruction is placed at the street intersection. On some streets the posts are ornamental light standards.

Such an obstruction is just enough in the way to cause drivers to cut down their speed, to some extent at least, and not enough in the way to obstruct traffic. If some such arrangement could be made at the corners of Third and Main and Fourth and Main streets here, and then arrests made if the traffic rules were violated, it probably would be the best solution of the question. The expense of paying policemen would be obviated, the posts would be more effective and last longer than marks painted on the pavement, and the results would be permanent.

Maryville would do well, too, to enforce a rule requiring motorists to signal once with a horn if they intend to go straight ahead at a crossing, twice if they are going to turn to the right and three times if to the left. It would not only improve the local situation, but the habit acquired might avoid motorists trouble when they go to cities where such a law is in force.

Y. M. C. A. Aids Men Earn \$13,000.

The Y. M. C. A. at Columbia is doing mighty good work. Through its efforts in finding employment for University of Missouri students, who are working their way through school it enabled 150 men to earn approximately \$13,000 the past school year, according to the Columbia Tribune. The Y. M. C. A. employment bureau has helped many of the honor students in recent years to find a foothold and keep in line. It is planning still greater activities in this direction for the coming school year.

BEEF PLENTIFUL IN S. AMERICA.

With Local Supply Shortening, United States Imports More and More From Uruguay.

With porterhouse steak at 50 cents a pound retail as an imminent fact, the There are chemists, laboratories, en-beef eaters of the world are getting gineers, and authorities on technical somewhat worried, especially those matters, all engaged in cooking the who happen to be domiciled in the beef so as to turn it out in the most United States. Argentina is supplying acceptable form as the well known some of her product, but when the and popular extract. The company is enormous total of Uncle Sam's con-organized with a system of help to sumption is taken into consideration the employees, for improving their their business world.

In this connection it is interesting to note an article in the July number of the Monthly Bulletin of the Pan American Union, Washington, D. C., in which, under the title of "Uruguay as a Cattle Country," some interesting details as to the live stock industry of this rich little republic of South America are given.

Something over a hundred years ago the hacendados (tranchmen) of Uruguay complained to the government that more than 450,000 head of cattle were being killed annually for their hides alone! The carcasses were thrown to the dogs, or left on the rolling pampas for the vultures to devour. Beef in Uruguay was so plentiful that it was something of a nuisance evidently. Of course that day has passed, but they still have cattle enough down there to convert some 700,000 head into 113,000,000 pounds of jerked beef in one year, most of which is sold to Brazil, Cuba, Porto Rico, and other tropical countries. Think of the juicy tenderloins of 700,000 head of cattle going into jerked beef!

Again there are many thousands of Uruguayan cattle annually converted into extract of beef. Perhaps a few people know that the first great factory for the production of beef extract known to the world was established at

Fray Bentos, a little city on the Uruguay river, about 100 miles above Buenos Aires, the cosmopolitan capital of Argentina, and that it is still doing business "at the same old stand," although the "stand" has grown enormously larger since the time it became the pioneer in the beef tea industry. The world-wide reputation of this concern is perhaps largely due to the high manner of the cattle of Uruguay, as well as to the cleanly and scientific manner of the preparation of the product. The writer of the article in the Bulletin states:

"Fray Bentos has been called the greatest kitchen in the world. On some days 2,500 head of cattle are slaughtered, then treated so as to get the finest meat from them, the bones and ribs, the intestines, tails, sinews, and

HORSES IN HOT WEATHER.

Women's League Issues Bulletin of Suggestions to Owners.

These suggestions for the treatment of working horses in hot weather have been published by the New York Women's League for Animals.

1. Load lightly and drive slowly.
2. Stop in the shade if possible.
3. Water your horse as often as possible. So long as a horse is working in moderate quantities will not hurt him. But let him drink only a few swallows if he is going to stand still.

4. When he comes in after work sponge off the harness marks and sweat, his eyes, his nose and mouth and the dock. Wash his feet, but not his legs.

5. If the thermometer is 75 degrees or higher, wipe him all over with a wet sponge. Use vinegar water if possible. Do not turn the hose on him.

6. Saturday night give a bran mash, cold, and add a tablespoon of salt-peter.

7. Do not use a horse hat unless it is a canopy-top hat. The ordinary bell-shaped hat does more harm than good.

8. A sponge on top of the head, or even a cloth, is good if kept wet. If dry it is worse than nothing.

9. If the horse is overcome by heat, get him into the shade, remove harness and bridle, wash out his mouth, sponge him all over, shower his legs and give him four ounces of sweet spirits of ammonia, or two ounces of water, or give him a pint of coffee, warm. Cool his head at once, using cold water; or, if necessary, chopped ice wrapped in a cloth.

10. If the horse is off his feed, try him with two quarts of oats mixed with bran and a little water; and add a little salt or sugar. Or give him oatmeal gruel or barley water to drink.

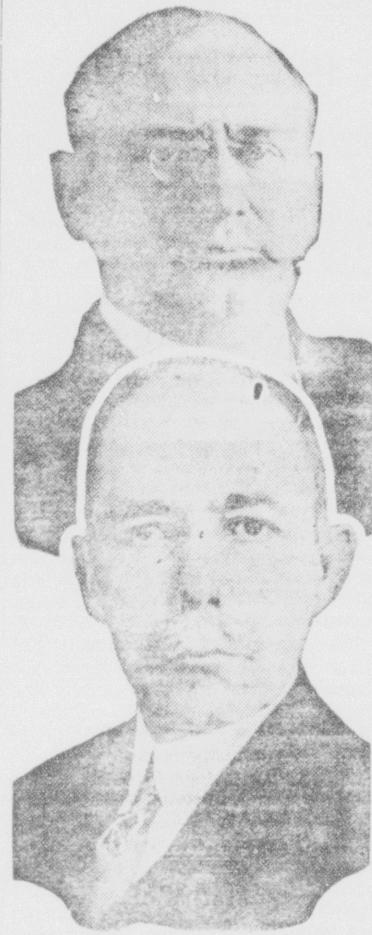

11. Watch your horse. If he stops sweating suddenly, or if he breathes short and quick, or if his ears droop, or if he stands with his legs braced sideways, he is in danger of heat or sunstroke and needs attention at once.

12. If it is so hot that the horse sweats in the stable at night, tie him outside. Unless he cools off during the night he cannot well stand the next day's heat—Indianapolis News.

**TREND OF TRADE IS
IN RIGHT DIRECTION**
**Actual Progress In Business
Lines is Still Slow.**

New York, July 18.—Dun's Review says: Actual progress in business is still slow, yet with the trend in the right direction optimism is becoming pronounced. The improvement in sentiment is primarily due to the prospect of another year of bountiful harvests. Apparently the outgo of gold to Europe has culminated and sterling exchange has steadily declined on increased offerings of commercial remittance and drawing of finance bills in anticipation of shipment of domestic staples. Both money and commercial staples are rather firmer, but rates average lower than a year ago.

The most encouraging feature of the general situation is the further betterment in the iron and steel industry. There has been an unusual influx of buyers in the dry goods markets, due to the Clafin sale and the opening of many spring lines. As a whole, values remain steady, with an upward trend in some directions, but operations are still conservative. Footwear factories are fairly well employed. Still lower price levels were reported by the leading cereals, although complaints of rust damage in the northwest gave temporary support to wheat, and cotton also tended downward.

Failures this week are 392. Bank clearings this week amounted to \$2,772,018,633, a gain of 4.4 per cent over last year.

Assailant of Girl Hanged by Mob.

Baker, Ore., July 18.—An unidentified man who had attacked the eight-year-old daughter of a farmer was taken from his captors, a party of ranchers, by twelve masked men and lynched. The victim of the hanging had been caught earlier in the day and was being taken to jail at Whitney.

Mrs. Skeptical—Well, what this paper says may be true, but I don't believe everything I read, and I would have to see this Fels-Naptha Soap do the things it says it will do before I believe it. I never heard of using cool water to do a whole week's dirty wash."

Anty Drudge—I should think the best way to find out about it would be to get some of the soap and try it. I don't have to, because I've been using it for years, and I know it will do all these things, and more."

can have in doing her daily housework. On Mondays it helps her get through a big wash with far less work and in half the time required by the old-fashioned way. It works best in cool or lukewarm water, and clothes washed with Fels-Naptha Soap do not need to be boiled. It has saved many a woman from a heavy cold, because she does not have to get overheated in a damp, steam-filled kitchen before she goes out to hang up the clothes.

U. S. WORKING FOR
PEACE IN MEXICO

Administration Is in Communi-
cation With Zapata.

NOTABLE ABSENCE OF CRIME.

Unprecedented Number of Suicides
and Attempted Ones in Mexico City
Since Huerta Left—Dictator Re-
mains Aboard Train.

Washington, July 18.—Every in-
fluence and diplomatic agency at the
disposal of the United States govern-
ment was working for immediate
peace in Mexico.

The administration is convinced
that with the elimination of Huerta,
for which it has been steadily press-
ing for more than a year, the various
factions in Mexico will be drawn to-
gether. To aid in this and assure
restoration of normal conditions with-
out further bloodshed officials here are
exerting themselves to smooth the
way for a new and stable administra-
tion in Mexico, which shall be recog-
nized by the powers of the world.

Not only is the American govern-
ment at this moment counselling Gen-
eral Carranza, the Constitutional chief,
to arrange with Francisco Car-
bajal, Huerta's successor, for the
peaceful transfer of the government
at Mexico City to the Constitutional
ists without further fighting, but it
became known that the administra-
tion is indirectly in communication
with Emiliano Zapata, leader of the
revolution in southern Mexico.

Zapata, according to reliable reports
to the state department, has 24,000
men, and though most of them are
poorly equipped, they would consti-
tute a serious menace to a new gov-
ernment at Mexico City if they re-
mained in revolution.

Huerta Remains Aboard Train.

Puerto Mexico, July 18.—When Gen-
eral Victoriano Huerta, who is still
sharp curve in the road. The machine
bills country and share the exile of
General Porfirio Diaz, whom he escort-
ed to the coast three years ago, is yet
unknown, except perhaps to himself.
Captain Kohler of the German cruiser
Dresden offered him his ship "for any
use he cared to make of it," but Gen-
eral Huerta merely thanked him, add-
ing that he would return his call to
day.

British Vice Consul Gemmill also
officially called on Huerta and pre-
sented him a message, presumably an
offer of refuge on the British cruiser
Bristol. Huerta read it and expressed
pleasure at the consideration being
shown him. Local officials calling on
General Huerta were few in number,
the only one of importance being Gen-
eral Rincon, commander of the local
garrison. Commander Gabriel A. Car-
valho of the Mexican gunboat Zara-
zosa, with his staff, also called, but
General Huerta was weary of holding
receptions and asked to be excused.

Epidemic of Suicides.

Mexico City, July 18.—An unprece-
dented number of suicides and at-
tempted suicides have taken place since
the fall of the Huerta government. In
the last two days four suicides and
three attempts have been reported.
The residents are appalled, as such
attempts are rare here. There has
been a notable lack of crime during
the same period and the tranquillity of
the capital continues undisturbed,
although a feeling of uneasiness pre-
vails.

FIVE WOMEN INJURED

Auto Takes Plunge Over Embankment
at St. Paul.

St. Paul, July 18.—Five club women
of Minneapolis were injured when an
automobile in which they were riding
plunged over an embankment at a
sharp turn. The train here, excepts to leave
fall fifty feet and then caught on a
small ledge, preventing a farther drop
of nearly 300 feet.

Miss Mae Wessberg, Librarian at the
summer branch of the Minneapolis
public library, was most seriously
injured and may die.

The other injured women are: Miss
Gratia Countryman, Librarian, Minne-
apolis public library; Mrs. Manley L.
Fosseen, wife of State Senator Fosseen;
Mrs. R. A. Swain and Miss
Grace E. Gerrish.

Paris Surgeons Separate Sisters Who
Were Joined Back to Back.

Paris, July 18.—The two sisters who
were born May 22 joined together,
back to back, being united in the lum-

tion was performed by Dr. Mignot,
assisted by Dr. C. W. Du Bouchet,
chief surgeon of the American hos-
pital.

The most delicate part of the opera-
tion was the dissection of the intestines,
which at one point were united
for a space of an inch and a quarter.

Quimet Goes Around Course In 75.

Newton, Mass., July 18.—Francis
Quimet, national open golf champion,
made a remarkable low medal score in
the third round of the Massachusetts
amateur golf championship at Brae-
burn. In defeating G. H. Pushee he
was around the course in 75, winning
by a score of 5 up and 3 to play.

PITCHED BATTLE
IN ARKANSAS

Striking Coal Miners and Sym-
pathizers Rout Guards.

PROPERTY DAMAGE IS HEAVY.

Tipples of Three Collieries Near Fort
Smith Destroyed by Fire and Dyna-
mite—Rioting Outcome of Distur-
bances Over Open Shop.

Fort Smith, Ark., July 18.—After a
pitched battle between several hun-
dred striking coal miners and sympa-
thizers and 100 guards stationed at the
Prairie Creek mines of the Mammoth
Vein Coal company near Fort Smith,
which ended in the rout of the guards,
tipples of three mines were destroyed
by fire and dynamite. The property
damage is estimated at \$200,000. So
far as can be ascertained no one was
killed or wounded in the fighting. The
mine guards retreated after their am-
munition was exhausted.

The rioters held possession of the
mines several hours, wrecking the
plants with torch and explosives. The
properties are deserted. Preparations
are being made to send additional
armed guards to the mines.

County officials went to the scene,
but before they arrived the attacking
party had dispersed.

The rioting was a culmination of
disturbances which have occurred at
intervals since the contract with the
United Mine Workers was abrogated
last March and announcement was
made that the properties owned by the
Bache-Dennison Coal company, but
under lease to the Mammoth Vein
company, would be operated on "an
open shop" basis.

MRS. CA MAN FREED ON BOND

Wife of Physician Charged With Man-
slaughter In First Degree.

Freeport, N. Y., July 18.—Mrs. Flor-
ence Conklin Carman, indicted on the
charge of manslaughter in the first de-
gree in connection with the killing of
Mrs. Louise Bailey, returned here
temporarily a free woman. She was
released for trial under \$20,000 bail
fifteen minutes after the grand jury
made known its findings to Justice
Van Sien, sitting in the criminal
branch of the supreme court at
Mineola.

She pleaded not guilty and was
given two weeks in which to change
her plea or demur to the indictment.

Probe of Gas Improvement Company.

Washington, July 18.—Investigation
by the department of justice of the
United Gas Improvement company
probably the largest factor in the
country in the sale of gas lighting
fixtures, is nearly completed, but
whether the government shall bring
suit against the company under the
Sherman anti-trust law has not been
determined. The inquiry is said to
have developed that it does business
in nearly 200 cities and towns in the
United States.

Eight Railroads Fined.

Chicago, July 18.—Eight railroads
were fined an aggregate of \$30,000 by
Federal Judge Landis for violation of
the law providing that live stock in
transit must be fed and watered at
least once every twenty-eight hours.
The roads penalized were the Rock
Island, Northwestern, Burlington, Illi-
nois Central, Baltimore and Ohio,
Great Western, Grand Trunk and
Alton.

Motorcyclist Killed In St. Louis Race.

St. Louis, July 18.—Thomas B.
Lewis of Birmingham, Ala., was killed
in the races being run under the aus-
pices of the Federation of American
Motorcyclists, now in convention here.
He crashed into the fence and fell
over a twenty-foot embankment dur-
ing the first race of the day.
